

Is this a SKIM module in PT Cruiser??? Where exactly I connect the wires from Bypass module (White/Black, White/Red, Yellow, Orange/Black, Orange and Pink colour wires)?

Is this a 6 Pin Connector (It's at right side of the column as u said, but its having Brown/white, Red/Yellow, Blue, Brown, Black, Green wires)? If not where is the 6 Pin Connector with White/Dk.Green, Blue/Black and Violet/Yellow colour wires here (To connect White/Black, White/Red, Pink colour wires from bypass module.)
